**ROXANNE GRINAGE DEFIES PROVEN CRIMINAL AUG 17, 2009 ORDER OF CUSTODY MASTER FERN B. CAPLAN, ESQUIRE SIGNED BY HON. LISETTE SHIRDAN-HARRIS, ENACTED BY COMPLACENT CRIMINAL INTENT FIRST JUDICIAL DISTRICT CCP FAMILY COURT ADMINISTRATIVE JUDGE KEVIN DOUGHERTY**

Your client was recorded moments ago, telling Lorraine that Timothy E. Possenti, Esq. and "the Judge"

knew about positive drug test "long before August 14th hearing." I sent text to Erick Brown to talk to his attorney and follow whatever he advises because we fully expect 8-17 order of Caplan to change as a result of 8-19 produced positive for cocaine drug test of Possenti's client and that the kids would not be recklessly endangered or moved out of their only known home, unnecessarily until Erick had clean drug test and his own place to live. Erick Brown is recorded threatening Lorraine "get ready for the ride..It's on now...." Erick Brown told Lorraine "So what? We all knew my test was positive, my lawyer knew it and the judge knew it...we even talked to the doctor about it...The Judge knew, my lawyer knew we all knew." "Your mother is messing in business that does not concern her" "I did all this fighting and paid all this money, you [to Lorraine children's mother] are going to keep f'kng around until you lose all your rights." "I'm going to pay my lawyer whatever it takes to make sure you and your mother lose all your rights."

Other evidence gathered in the past week.

Cell phone pictures sent to us by mutual friends of Erick and Saundra Sullivan "copping" (buying drugs), one time with the children in the back seat (no car seats of a vehicle that was borrowed by Erick from one of his auto repair customers.)

Digital Audio File statements of several mutual twelve step recovery associates of Erick and Roxanne Grinage; a HireLyrics Client who lives across the street from Saundra Sullivan's house gave us capture video surveillance of the number of people who actually stay in the house for two and three days at a time, including Saundra's mother's five foster kids, and Saundra's 18 year old daughter who she testified in August 14th hearing had moved out. And, there is surveillance capture video of Saundra Sullivan leaving the kids at her mother's house all day and overnight. We also have video of Saundra Sullivan purchasing alcohol. There is no video of Saundra Sullivan or Erick going to church as they claimed.

Witnesses in Lorraine's rooming house have given their statements and we have video footage of the condition the kids were in when Erick dropped them off for Lorraine's 8-17 Caplan order which stripped Lorraine of all physical custody rights, visit 8-28 showing rash all over Arriyel's face and Ezekiel being offered computer time for watching videos, and saying "no touch Miss Saundra computer....bad bad."

You are advised that this is now a federal matter and we have requested and expect to achieve Federal Corruption Probe for the purpose of blocking federal funding of the Corrupt First Judicial District Family Court Machine. On an individual level we are committed to protecting our constitutional rights proven violated in August 14th Caplan presided hearing and August 17th Lisette Shirdan-Harris signed order (we recorded the hearing on digital recorder). 8-17-09 Criminal Willful Reckless Child Endangerment, Obstruction of Live Saving Health Care and Obstruction of Education, Cover Up Criminally Intentioned Order of Fern Brown Caplan must be corrected immediately or we will proceed with proving your actions forced a commercial transaction which resulted in the loss of millions of dollars and impose UCC Liens as described in Attached "Defy Criminal Court Ordered Abuse" "Younger Notice" and we will aggressively participate in all federal and supreme court class actions to pull restitution, damages, crime victim compensation from your personal assets of real estate, bank accounts, vehicles and your children's college funds.

Erick is claiming he is coming to our house with the police to enforce Caplan's 8-17-09 order. The police have been notified that this is a federal matter and are proceeding accordingly.

Please change the 8-17-09 Caplan order that Willfully Recklessly endangers my grandchildren and dooms their education and stops their father from going into drug and alcohol treatment programs that will save his life.

Lastly CCP Philadelphia County Family Court had better prove why Arriyel and Ezekiel need to be moved from their only known home with Grandparents and Mother for any reason other than the fact that Erick's new girlfriend has furniture and wants some foster kids of her own as she testified at Caplan's 8-14 hearing. All the slander and unfounded statements Possenti and Patricia Lee CHOP social worker need to be proven. I have proven that the testimony of Patricia Lee was orchestrated by Timothy E. Possenti based on fragments told to him by his addiction impaired client, Erick Brown. Sondra Justice wants to sue all of you for defamation of character and identity theft. You censored and destroyed our evidence and Caplan is heard on our digital recording saying, "I didn't even read it" referring to our numerous faxes pointing out Court Administrated Errors Flagrant for Conspicuously favoring Timothy E. Possenti, Esq., PC, defendant father's counsel and destroying evidence that would have caused an ethical court to mandate my son in law to drug and alcohol rehab and maybe save his life instead of recklessly endangering his children by flippantly suggesting they take their chances with an over crowded functionally illiterate on SSI for hearing and other disabilities food stamp greedy stranger, Erick's new girlfriend.

Of course we reserve our right to publish all communications, facts and data relative to crimes committed against our family or client/collaborator constituency. All fraudulent DMCA claims will be counter claimed with penalties. All calls to landline home phone and Lorraine's phone are recorded.

So as not to "rant", I acknowledge that your position is that you are not working with Caplan and Lisette-Hardin to correct the financially incented order that destroys my family. I also have a recorded record of the hearing on digital recorder and it is clear from any objective listener that Constitution Right to due process was not acknowledged. It was clear that a CHOP witness' verbal testimony relied on her claimed knowledge of me and Lorraine when we are heard stating over and over again that she does not either of us and Lorraine heard saying over and over again that she never confided anything in Patricia Lee, LSW. None of her verbal testimony including that of what Sondra Justice supposedly said to her was in her written report. You and Fern Caplan ignored my faxed pointing out the Sondra Justice is absolutely enraged that her name was used - identity stolen. Further, Caplan, censored our submission of prior victimization by Department of Human Services DHS proofs and accepted Patricia's Lee's testimony that I have a "history of mental problems" instead of recording truthfully that my family has been injured as a result of multiple DHS case worker malpractice and Family Court mis-administration, Plaintiff's Exhibit B pages 1 through 16.

Fern Caplan is heard extending you the courtesy of not writing the order until promised hair follicle tests came in expected Monday. Instead Fern B. Caplan wrote the Order on Monday with your positive for cocaine and crack cocaine test. You and Fern Caplan ignored my fax request to learn the results of the urine tests Fern Caplan Ordered. Then you fax the suggestion to Fern B. Caplan two days later to leave the kids with Saundra Sullivan knowing that he's positive for Cocaine in April. I clearly documented the Constitution Rights violations that occurred in August 14th Hearing, with proofs, and documented your Willful Reckless Endangerment and attempt to extort additional money from your addiction impaired clients. We can be heard on the recorded file asking whether your witness had any training in addiction as a disease recognized by the American Medical Association. No one had any knowledge of the harms that are caused when an addict is active and is not mandated into treatment. Fern B. Caplan destroyed the qualified proofs that Erick has been self and clinically diagnosed with the disease of addiction and abandons or endangers his family in progressively hazardous ways. Progression is one of the symptoms of the disease. We had 4 years of proofs. Also Erick brought the kids over after having them one week with the filthy clothes they had on when he picked them up from Lorraine's last Friday.

I am committed to exposing for the sake of saving my grandkids every crimes that has been committed against my family by unethical Family Court affiliated "professionals" who exploit their positions of having some say over what happens to children. If I am raving then so is the rest of the world because, Mr. Possenti, there is a movement worldwide to Dismantle the Corrupt Family Court machine. Ethical Attorneys are causing funding to be cut; Ethical Federal Attorneys are taking on pro bono landmark class actions and I am prepared to defend to the death, my constitutional right to keep my family safe from any more quality of life harms by Complacent Negligent Judges taking 18 months and sometimes the lift the destroyed child to admit they signed "orders" for which they did not verify whether or not Fourth Amendment due process was observed.

Again, there will be no more defenses of the corrupt 8-17-09. I and collaborators will continue aggressively submit blog, video and citizenship reporting journalism which names the actual names of our assailants who call us crazy because we take exception to the destruction of our futures. I am demonstrating proving costs associated with corrupt attorney's crimes and pulling restitution from personal assets. Perhaps you won't be so cavalier about obstructing our children's education if your kids' college funds were attached. FYI, published journalism is only slander if it's not true and it can't be proven. We have proofs and verify every single thing we publish. You will not win by intimidating us. Fix the order that threatens my grandkids - use the same favor demonstrated to you already by Fern Caplan as you admitted in your August 19th fax to her that you knew the results of August 14th urine tests when my fax request to learn same was ignored.

Sincerely,  
Roxanne Grinage  
Apologize for the typos. Rushing as usual.

Dear Ms. Grinage,

I called you to ask you politely to remove the slanderous lies you have posted about me on the Internet. You slammed the phone down on me. I faxed you a letter demanding that you remove the malicious and false postings. Our only contact prior to today has been a family Court proceeding wherein the side I represented was granted an Order in his favor and against you. It is and should be considered a private and sensitive family matter. I did not read that anywhere in your rantings. That entire proceeding is contained on a taped record. You also failed to state anywhere in your false postings that you had a full hearing and that you testified and offered arguments at that full hearing. You are so advised.

Your attention is appreciated.

Mr. Possenti, per our telephone conversation now which ended when you referred to my aggressive publishing of your role in the financially incented order of Custody Master Fern B. Caplan signed by Lisette Hardin-Harris and which end when you attempted to brow beat me....

Il have posted and given to you August 25th Federal Younger Notice. Our constitutional rights to due process were violated and our grandchildren were willfully and recklessly endangered by your decision to delay positive drug test for Erick and then offer to Fern Caplan 2 days after her unqualified order to extort more money out of your client with your expert's "email". It's not okay for our grandkids to be recklessly endangered until January 25th the court date Fern Caplan moved back from November 23rd censoring to deletion our proofs that my son in law is in need of life saving health care, drug and alcohol treatment.

In the exactly one week that Erick and Sandra Sullivan have had the kids, we have cell phone photos from our friends showing Erick and Sandra at different times copping (buying drugs), once with the kids in the vehicle. We have numerous digital files and sworn affidavits from people who know the nature of the addiction as a disease and know Erick. He is getting, and abandoning the children for longer and longer periods of time with Sandra Sullivan who also watches her mother's foster kids and leaves our grandkids with her mother.

We just picked the kids up from Lorraine's where Erick dropped them off for her visit and Arriyel is broke out all over her face with some kind of rash and Ezekiel is saying "no touch Ms. Sandra computer....bad bad...."

I am a reporter and journalist and I own DMCA ISBN rights to report true non-fiction. In this case, the crimes are of your's and Fern B. Caplan's deliberately putting the children in the most high risk environment In order to ensure your's and her income regardless of what the children suffer. You conducts in this case are classic for the Senator Schaeffer and Center for Judicial Excellence documentaries which expose exactly why the Family Courts are so corrupt, you are making decisions that not in the best interest of the children - you are making the best interest for your children and your pocketbooks at the expense of our children.

Please Correct/Vacate 8-17-09, or save any notices or threats for Federal and Supreme Court. I will tell you what I told Gloria Allred. I only want the assault on my grandchildren's safety and education to end. If the August 17th order is vacate and the kids stay with us until the next court date waiting to see if Erick is Clean, I will unpublish everything and tell me collaborators (around the world now) to do the same.

Sincerely

Roxanne Grinage,

If I don't get a response from you by return email within the hour, I will publish this message to you.

Dear Mr. Possenti,

There is no need to call first before sending fax. I will leave phone line set up for receiving faxes all day to receive copy of Erick L. Brown's hair drug screen results that you explained at Rule To Show Cause hearing 8/14, are expected today.

Will you please fax complete screen results including chain of custody data, i.e., employee/facility signed Chain of Custody Verification, verifying the hair tested is in fact that of Erick L. Brown, and all non-redacted/uncensored pages of the full test results, identifying contact information for the facility and responsible clinician, as is customary in discovery proceedings.

I remind you that Plaintiffs exercise our right to present Pro Se and have Constitutional right to receive timely courtesy copies of your correspondence with the Custody Master, which impacts scheduling, witnesses, expert reports, in this regard. The events which occurred during the August 14th Rule To Show Cause indicate that you and Family Court have ignored Plaintiffs Constitutional right to service, preparation of defense, presentation and discernment of witnesses starting 07/21/09 through 08/14/09.

Ms. Sondra Justice is enraged that her identity was stolen in the verbal testimony of your Social Worker witness and has asked me to produce Ms. Justice's written and video captured statement confirming that she did not speak to Patricia Lee, LSW, has never represented that she was Lorraine's foster mother to anyone; and suffered almost as much loss as the Grinage family did as a result of DHS caseworker malpractice against Justice's family and the Grinage family, 2000, 2001. We note that your Social Worker witness, Patricia Lee, gave verbal testimony with substantial reference to Sondra Justice but that Sondra

Justice's name is not mentioned in Patricia Lee, LSW, written report.

I will wait to learn Custody Master, Fern B. Caplan's Order (promised today), before deciding whether to exhaust further resources of time and money reporting your social worker, Patricia Lee, LSW, for professional misconduct to Pennsylvania State. Hopefully Patricia Lee's, LSW, unqualified testimony which essentially stole a woman's identity (Ms.Sondra Justice), has not caused further damages to the Grinage/Brown family by putting our family at risk for further injuries, earnings loss and ongoing damages caused by DHS caseworker malpractice.

Thanking you in advance for anticipated professional courtesy in this regard.

[TEPEsqire@aol.com](mailto:TEPEsqire@aol.com) Dear Mr. Possenti, Per Plaintiffs letter of July 30, 2009, will you kindly provide timely courtesy copies of your correspondence with Court which impacts scheduling in this matter? Plaintiffs deserve emailed courtesy copy of your correspondence to Family Court today, which you judged to be time sensitive enough to fax to the Court but excluded Plaintiffs in timely informational copy via email address provided to you on letterhead of prior communications from Plaintiffs, pro se. I have learned by calling clerk's office simply to follow up and ask whether Rule To Show Cause hearing of Aug 6th is continued, that a fax has been received from Defendant's attorney dated today, August 3rd. Please use email to courteously copy plaintiffs, pro se so that we might have sufficient time to prepare our input for the Court. As your family is important enough to you to request continuance of August 6th Rule To Show Cause hearing, so that you can honor prepaid family vacation plans; so is our family precious to us for acting timely with regard to matters which impact the safety and care of our grandchildren and their mother, our daughter, Lorraine Grinage. Timely service of correspondence which impacts scheduling in this matter is respectfully requested for the second time. As you know,

Plaintiffs have yet to be served by either the Court/Clerk's office, or Timothy E. Possenti, Esq., P.C., (Defendant's attorney), with codefendant Erick L. Brown's July 21st Answers and Counterclaims which were consolidated with Rule To Show Cause hearing (without service upon Plaintiffs), continued per your request, relisted August 14, 2009 at 9:00 a.m. before Custody Master Fern Kaplan, Esq. Resolving this dispute in the best interest of babies Ezekiel and Arriyel does not have to be bogged down with documentation of procedural discourtesies and mistakes, if all parties and representing counsel simply respect how our conducts impact quality of life for families. A copy of this will be provided for the Clerk and Custody Master and any future processes, in the event I do not receive a copy of your August 3rd fax to the Court in tomorrow's mail.
